

Vantage CAD Services: Shop Drawings

At a glance

Vantage CAD Services provides comprehensive shop drawing services to ensure the success of your construction projects. Our team creates detailed and accurate drawings that adhere to industry standards, delivered in both CAD and BIM formats to seamlessly integrate with your workflow.

Challenges

Creating shop drawings that accurately reflect design specifications and comply with industry standards requires expertise and attention to detail. Mistakes in shop drawings can lead to costly delays and rework during construction.

Timely delivery of shop drawings is crucial for maintaining project schedules. In-house drafting teams may struggle to meet deadlines, especially on complex projects.

Building and maintaining an in-house drafting team can be expensive, with significant overhead costs for salaries, software, and training.

Benefits of Our Drawings:

Precision & Efficiency:

Build with confidence on a foundation of precise drawings, avoiding costly delays.

Cost Savings:

Reduce project budgets with our cost-effective outsourcing solution.

Focus on Core Business:

Free up internal resources for core construction activities.

Solutions

Detailed & Standards-Compliant Drawings:

Our skilled drafters utilize the latest software to create comprehensive shop drawings that precisely represent your architectural, structural, and MEP components. We adhere to relevant industry standards and specifications, ensuring seamless integration with construction plans and avoiding costly errors.

Flexibility with CAD & BIM Formats:

We understand that project requirements and software preferences vary. We offer shop drawings in both CAD and BIM formats, allowing you to choose the format that best suits your project needs and existing workflows.

Efficient Workflows & Timely Delivery:

We employ streamlined workflows and efficient communication channels to ensure timely delivery of high-quality shop drawings. This helps you stay on track with your construction schedules and avoid delays.

Cost-Effective Solutions:

Outsourcing your shop drawing needs to Vantage CAD Services offers a cost-effective alternative to maintaining an in-house drafting team. You benefit from our expertise without incurring the overhead costs associated with salaries, software, and training.

A Streamlined Project Experience:

1. Project Initiation:

Easily connect with us through our website or contact information. Submit an inquiry outlining your shop drawing project or reach out directly via email or phone.

2. Consultation & Requirements:

We'll schedule a detailed consultation to discuss your specific shop drawing needs.

3. Proposal & Quotation

We'll prepare a comprehensive proposal including a detailed breakdown of deliverables, project timeline, and a transparent pricing quote.

4. Project Execution

Upon your acceptance of the proposal, our team will begin working on your shop drawings. We maintain consistent communication throughout the process, keeping you updated on progress and addressing any questions you may have.

5. Review and Delivery

Once your shop drawings are complete, we'll deliver them to you in the chosen format (CAD or BIM) for your review and feedback. You'll have the opportunity to request revisions.

6. Ongoing Support

After final approval, we'll provide the final shop drawings in the agreed-upon format. Even after project completion, Vantage CAD Services remains available for ongoing support and assistance.
